For instance, the editor says "the Louisville estimate is 280,000. but there is little doubt it will reach 800,000." We would be glad to know what authority he has for this opinion. We again assert that the east timate of 280,000 is not 5,000 hogs wrong, and we don't believe it will vary 2,000 from the actual result. The editor says "at Lexington 16, 000 hogs have been slaughtered and bogs are arrived breely." This is a mis-statement of facts. Neither proposition is true. He says "at Laferett, Delphi, &c., &c., the packing will exceed the of last year." This is not in accordance to the same has been should be a solution of last year. This is not in accordance of the same has been should be a solution of last year. This is not in accordance of the same has been should be a solution of last year. This is not in accordance of the same has been should be a solution of last year. This is not in accordance of the same has been should be a suppleasance of the same has been should be a suppleasance of the same has been should be a suppleasance of the same has been should be a suppleasance of the same in the sam

erroncous.

He says "at Viocennes it is estimated 20,000 He says "at Viocennes it is estimated 20,000 will be packed against 24,600 last year." Now, we assert that no man at all conversant with the trade at Vincennes has at any time within the pact three months estimated the packing at that point at 20,000 hogs! We eave a dispatch from the Messra. Wise, packers of that city, dated yesterday, stating the number then packed at 2,500, and that "the packing for the entire season cannot exceed 8,000 hogs!" He says "at Mound City 18,000 packed against 5,200 last year!" Now, at the date of the Price Current, there were but 150 packed at Mound City; and s year!" Now, at the date of the Price Current, there were but 150 packed at Mound City; and a gentleman in this piace interested in the house there, and who has just returned honce, attact that the packing there cannot in any event exceed 1,000 hand! He says "at Indianapplis 20,000 head have been claughtered, and it is supposed the season will extend into January." The obvious inference in that the receiver in early

posed the season will extend into January." The obvious inference is that the packing is still going on and would of course be large. Now, the facts are that one house—that of Mansur & Ferguson—had closed at the date of the Price Courses, with 7,000 bogs packed, (all very light and yielding but 300 barrels mess pork,) and the other—that of McTaggart—had packed some 3,000 and expected to pack some 300 more, making less than 16,000 in all.

He says "that is is estimated the Madison packing will exceed that of last year." The fact is the packing there is "setimated" at 5,000 less in number and a decrease of fifteen his per head average weight! He says, "at St Louis the packing is backward, but hogs were arriving freely at latest dates." Now, the fact is that hogs have at no period this season arrived "freely" at St. Louis, and the decrease there is estimated at 50,000 in number, with a large deficiency ted at 50,000 in number, with a large deficiency in weight! He says, "at Glasgow, Mo., 6,000 have been slaughtered." The fact is, she we know from a gentleman interested in the packing there, that it will not exceed 3,000, and at latest date little ever belt that number had "been" packed He says "It is estimated 20,000 will be packed

at Canton, Mo."
Dispatches from well informed parties at St.
Louis, dated vosterday and in reply to direct in-quiry, estimated Canton at 8,500! He says "the Burlington, Lown, packing is estimated at 30,-000." The St. Louis estimate of yesterday was but 25,000! He rays "at Mascatine 30,000 had been packed, and it is estimated that the number will reach 45,000!" The St. Louis dis-

number win resen 45,000." The St. Logis dispatch of yesterday, before mentioned, "estimates" the satire packing at 30,000!

He estimates the Davenport packing 27,000—the St. Louis dispatch of yesterday at 15,000—the St. Louis Dispatch of yesterday at 55,000!

The fate of this "Oracle" admonishes us against attentions that the against attending that rule, but we will venture one prediction, which we oppose to that of the editor of the Price Gurrent, namely, that the packing of this team will not foot up over 2,000,000 hogs in number, with a deficiency in usight of 10 to 12 per cert, giving us less than 1,800,000 hogs of last scason's average weight, or a orap equal to that of 1856, with less than the yield of that ceason, and a decrease in moss perk of quite one third compared with last sen son. Thus we put our opinion against that of the defining Oracle.

the defenot Oracle. The editor says there are but "foven" packers here, and this is true. It is equally true, and we commend the truth to the editor, that these "seven" seem like a dime to ten coppera conivalent to the Cincionati forty!

sure a site, for the removal of the Court House, in the Second or Fourth Wards. It is said that the location which the committee will select, is near the North-western extremity of the Second Ward, out in the direction of Wauwstoss, They ought to have made a clean job of it, and removed it out to Wanwaioes - once! The Board has also purchased a tract of land somewhere south of the city at \$700 an acre, as a location for the House of Refuge. We may have occasion to allude to the metter when the action of the Board is made public.

MILWAUKEE:

WEDNESDAY MORNING, DEC. 15. The Assumption Scheme.

The last number of the Green Bay Advacate contains a very able communication upon the Assemption Scheme which the Madison Journal attributes, and we think rightly, to Judge Howk. We shall endeavor to publish it in our next. The argument strikes us as a conclusive one against the policy, as well as the justice of the measure. Judging from the tone of the State press and the ta'k in business and political circles, we think it quite certain that the Assumption Scheme is already condemned by a large portion of the People of the State, and will receive its quietus from the next Legislature, at an early day of the ression.

from the position of chairman of the committee on Territories. Of these, seventeen voted for his removal, and seven against it. There are forty democratic Senators, some of whom have not yet resched Weshington, but it is evident that a large number of these who have taken their ceats, declined to participate in the proceedings of the caucus.—News.

Although a number of the Democratic Senators took no part in the Caucus to which the News refers, all of these who were in their seats, with the single exception of Mr. BRODERICK, of California, voted to confirm its deings. We published that vote yesterday, but as it is a very significant one, we repeat it :

The Republicans all voted against the arrange ment of the Committees, on the ground that it was sectional and unjust. The Democrats on the other hand, all voted in favor of the Caucus decision, including the dethronement of Doug-LAS. The Washington letter wilions all agree in saying that the blow was deliberately struck and that it means war on the part of the Administration against Senator Douglas.

For the Sentinel. The Past Mortem Examination.

Ms. EDITOR :-- A re-examination of the body of Mr. B. Larr was made at the Police Station, Mr. Larr died. My object in making this reexamination was mainly to satisfy Mr. LETT's friends and the public, of the correctness of my previously expressed opinion, to wit: That Mr. LETT died of a natural disease-it being essentially an ordinary pneumonia, and not from the effects of strychnine or from those of any other known poleon, as Dr. Douglas has vainly attempted to show. As the testimony of these physicians fully corroborates that opinion, I deem t unnecessary to give you the details of the

result of the two post mortem investigations. Dr. Douglas, who had "previously committed flict between Freedom and Slavery. Dr. Douglas, who had "previously committed the case before death," and who has subsequently, in his erticle in the Sentinel, made deeperare efforts to sustain it, affirms that the opinion pronounced upon the subject upon the examination was egregiously erroneous, and thinks that it did injustice to the deceased and tended to divert the ends of public justice. It will now be seen how egregiously the learned gentleman

Dr. Douglass seems either appious to rush into a newspaper controversy with Dr. GARNER and myself, or to avail bimself of the advantages of advertising without cost. For my part, as I have but little time to devote to his amusoment, I am content to leave bim in full posses-The New York Herald, (f the 11th inst., states that there were twenty four Senators in the caucus, which revolved to displace Judge Douglas from the position of chairman of the committee from the position of chairman of the committee of Tayliaries. century. Among intelligent, conservative and soundminded members of the profession, he has long since sacrificed all respect for any medical opinion he may advance. For a great portion of his life he has pandered to the caprices and follies of the ignorant and weak-minded, living upon the gullibilty of mankind in general, he has just ly merited the reputation of being the chiefpriest in the temple of Empiricitm. And now with "harlegoin bound he again leags out of the domain of reason and common gence" in search of new material out of which he expects to manufactare a little professional capitel. His theory of Mr. Lerr's illness and death is but another of the many vagaries of his distempered imagination, suggested, as he may affirm, through the medium of Mr. Larr's spirit.

NEW YORK CITE ELECTION. - The late election in New York City must be a source of congratu-istion to houset men all over the country. The action of the Senatorial caucus in removon Saturday lest, in the presence of six or seven of our most intelligent medical gentlemen, and I herewith submit for publication, their several opinions as to the nature of the disease of which the Larra died. My object in making this recompton men to the position of a fraction, and to drive them from the party. A leading Southern Senator said to day, that they had temporized long enough, and that they

had concluded to drive Douglas out of the party. The South will tolerate no balf-way position.
The Anti-Lecompton Democrats express deep indignation at the treatment which Douglas has received. Mr. Broderick was not invited to the caucus, and is considered as having been formally

read out of the party.

Mr. Seward, on heating the result of the caucus, remarked that it was the best illustration
that could possibly be given of the truth of his statement, that there was an irrepressible con-State; because it indicated a settled determina-tion to tolerate no diversity of opinion upon any messure which the South demanded.

The Anti-Lecempton Democrats declare that they will not submit. Douglas said recently that

The movement of his fixed Morris of Ridicals, in the House to-day in favor of Free-trade and Popular Sovereignty, is understood to be an Anti-Administration demonstration.

Jefferson Davis and Slidell led the ettack on Douglas in the caucus. There were only seven votes for Douglas. They were thrown by Messis. Shields, Stuart, Clingman, Brown, Toombs, Green and Bigler. These seven Senators protested against the exclusion of Douglas as suicidal to the party. The debate lasted from 10½ in the morning to a late hour this atternoon, with an hour's recess from 12 to 1 o'clock for a session of the Senate. Great histornoss was manifested, and Mr. Toombs left the cautes in disgust, while the discussion was at its height.

Washington, Dec. 10th, 1859 There is a good deal of talk about the Demooratic leaders being glarmed at the excitements which their blow at the Anti-Lecompton Democrats has caused. Such talk is abourd. The blow has been given deliberately, and will not be smoothed over. The prescription of Douglas would have been consummated in open Senate to day, but it is required that the Committees be amounced on the second Monday of December.

The States declares that the next will have the mest disastrous effect upon the Democratic party -will revive an extinct issue-will encourage Black Republicanism, and give it a renewed as-surance of a triumph over the disorganized De-

The Republican Senators held a Caucus to-day The Republican Seattors held a Caucus to-day to consider the quession of Committees. It was decided to vote sgainet the unfair arrangement of Committees proposed by the Democrats. They were unanimously opposed to tacking Douglas in his fight with his own party.

His abuse of the Republicans during the canvass, and his attempt to conclicate the Fire eaters, has materially weakened his position. The leading Anti-Lecompton Democrats, in Congress, openly complain of his conduct. They think that he talks too much about the cranication of

that he talks too much about the organization of the party.

Messas. Cook and Corlos report the road in excellent order, until the coach reaches the Arkness line.

The party met with considerable delay, by reason of the miserable condition of the roads in Arknass and Missouri.

An accident occurred by the breaking of the stage pole on the "Desert." On this account the driver had to put back to the station last passed, which occasioned a delay of some sight.

The Sons of Robert Burns.

From the Botton Transcript.

LIVERPOOL, Friday, Oct., 28, 1858.

* * Lest night, Thursday, Mr. T.
gave z dinner party, which I epjoyed so much,
as you will believe when I tell you that I went to
the dinner table on the arm of Colonel Burns, son
of the celebrated poet, Robert Burns, and sat
next to and conversed with him all dinner time.

Vary but one to him sat "Willie" Rurns the eldnext to and conversed with him all dinner time. Next but one to him sat "Willie" Burns, the eldest son of the poet—that is, older that in brother, Colonel Burns, although the latter appears to be very much older; heseems quite infirm, but tells me, that he will be 64 years old only, next month—his hair is white as snow, and his hand trembles very raugh. His brother (the older of the treat) is much status his hair for any and

it in the book, at the same time giving not a very knowing look.

Dinner was announced, and Col. Burns gave me his arm. After dinner, when the geatlemen had returned to the parlor, Mr. Alkin, whom the Messys. Burns are visiting, was talking with me. (Mr. Aikin's falter was Kobert Burns' most intimate friend; Mr. Alkin was Col. and Wille Burns' most intimate friend; and Mr. A.'s daughter Annie and Col. Burns' daughter Annie are most intimate friends.) I got un and took the book of nie and Col. Hurns' daughter Annie are most intimate friends.) I got up and took the book off
the table, and took from the book the piece o
paper, and said to him: "Now ifI only had
their signatures how glad I should be. Mr. H.
has their acrographs, but I want them for myself
also. Mr. A. called out, "Here Willie Burns."
The old gentleman came over to us, and I held
out the paper, saying, "Mr. Burns, please sign
this for me; I want your writing too—this is
your brother's." He tat down by me, and wrote
some remarks on the lines his brother had writsome remarks on the lines his brother had writ-ten, and signed his name; and then Col. Burns came over where we were and took up the paper, and signed his name too. Smiling, he looked at ous hierographics you will notice on the paper. I said to him, "What is that?" He replied, "James G. Burns, in Persian." He speaks the Persian figently. He was an East Indian officer in a different rank from his brother, for yory many years. They now live in Chittenham, having retired from the army. If Robest Burns were living, he would be 100 years old on the 25th of January next, when the Contennial Analysers my

of his hithday will take place. The older brother remembers his father's funeral, and that comprises about all his recollections of him personally. I shall preserve the paper and send it to you it will be something to have and to show which every one cannot boast of. white a very less that contribe manufacture and prachate of all towards a contribe and accounted by the contribution of the co having generously given up my empluments as informer to the subordinate officials, I hurried off in search of the betrayed woman to her hotel. I

in search of the betrayed woman to hor hotel. I gave ther lace twice the value of that she had lost, I paid her fine, and then explained. "You madam, had ten pounds worth of smuggled goods about your person, I had nearly fifty times that amount. I turned the informer, madam, let me convince you, for the sake of both of us. You have too expressive a countenance, believe me, and the officer would have found you out at all events, even as I did myself. Are you satisfied, my dear madem? If you still feel aggreeved or injured by me in any way, pray take more lace, here is lots of it." We parted the best of friends. —Foreign Paper.

—Foreign Paper. Quesa Wills -- Mr. Osman Wood, of Dart Queen Wills.—Mr. Osman Wood, of Dartmouth, died in that town last week, at the age
of \$4 years. Among his effects were found
\$2,500 in silver, \$500 of which were in Spanish
mills, and \$1,000 in bills of the Mechanic's Bank,
New Bedford. The bills had been kept in his
house rising thirty years, showing at least, that
he repused the utmost confidence in the subbility
of that prosperous institution, and that he was
not specially desirous of the interest that might
accrue from the sum. By a calculation, it will
be seen that in \$5 years the compound interest
thereon would have amounted to \$7,000. In his
will be bequeathed to his sister the very
liberal with the bedgeathed to his sister that very hosen-legacy of 88, to his brother 50; to his house-keeper \$1,000 and the balance of his property about \$10,000 to his nephew, who was very agreeably surprised, and who has a substantia-reason for blessing his late uncle.—Nantucke

against some of his children. He has endeavored to carry his prejudices to the third and fourth generations of his family. He has provided that if his heirs object to the will, they are to be wholly cut off from any portion of his estate.

Anticipating that this will might possibly be broken by the laws of this Christian State, he has left another will with four coddells, to go into operation in that event. For the credit of the legal profession, we will state that the document is in the handwriting of the deceased. Instead of having executors, this will has "executioners." We hear that some of the goutheran thus appointed will decline the dichoner.—Boston Transcript.

Money Matters,...We have nothing new to note in resaid to money matters, except that Currency is a Shader, though not by any means abundant. Dealers a Banks have no difficulty in procuring accommodations a the usual rate of discount, but little else than strictly good business paper can be negotiated at present. The supply of Exchange is equal to the demand, and it is selling at I percent premium. Gold is quoted at laik

Convergial. The market for breadstuffs is remarkable ateady, there having been no variation in prices for the past three duys at least. With moderate receipts No. 1 sells protty freely at 74a750 for good samples. The supply of extra is quite meagre, and the milling demand keeps it well up, and nice lots find ready said at \$455°C. Since the close of navigation the supply of four has fallen off quite materially, and prices are firmly maintained at \$444,12% for country extrns. The salex to-day comprise about 290 bbls, all country brands. Own 1s a shade higher, good shelted lots selling at 50c. There is a brisk local demand for cals, and good samples are taken quick-

being decidedly scarce. No transactions of importance baye transpired since our last.
